

Immediate Physique Transformation: The 60-Day Solution

How would you like to get compliment after compliment on your brand new physique?

This all-in-one-supplement is your ticket to a leaner and fuller look. Monster Mix boosts energy, builds muscle, and increases endurance. This unique blend of **Glutamine**, **Creatine**, and **Whey Concentrate Protein** will transform your body in just 60 days.

Glutamine preserves muscle tissue which allows your body to burn fat quickly. This results in more lean muscle mass. The body naturally produces growth hormone, which is responsible for muscle cell growth and regeneration. According to a study from the American Journal of Clinical Nutrition, seven out of eight subjects showed a 4.3-fold increase in growth hormone levels after a 90-minute oral glutamine load. With just 2 grams daily, your lean muscle mass will increase in just 60 days.

Thanks to its component of amino acids, Glutamine helps repair muscles and maximizes workout efforts. This gives the body much needed amino acids for lean muscle growth.

Monster Mix also includes **Creatine**---a nonessential dietary protein-like compound found in meat and fish. Creatine contains a high-energy phosphate known as Phosphocreatine, which creates ATP. ATP is considered by biologists to be the “energy currency” of life. Monster Mix boosts the rate of ATP so you can use it for more powerful muscular activity.

This allows you to train your muscles harder and build muscle at a faster rate. Creatine also increases “cell volumization”, which are muscle cells filled with water. The increase in cell volume causes rapid muscle growth, and results in increased muscle mass. Creatine enhances the fluid retained inside your muscles, and helps you see changes in appearance quickly.

Finally, Monster Mix contains **Whey Protein Concentrate**. Whey Protein contains the building blocks of muscle tissue and possesses high amounts of amino acids. Without these amino acids, muscle growth would not be possible. In addition, Whey Protein contains Lecine---an amino acid found in dairy products. Lecine helps build muscle *and* stamina. This is so important if you are looking to improve muscularity in 60 days.

With Monster Mix, you could easily be the most talked about physique in town. I invite you to discover your amazing body transformation today for only \$30. It’s a real bargain for 910 grams of powerful powder, and a 40-day supply.

You can purchase Monster Mix quickly by ordering online. Monster Mix is also offering a **Buy 3 get 1 FREE** promotion---which comes with a 60-day money-back guarantee.

Can you really get immediate results? Nothing can give you *immediate* results...but Monster Mix gets you as close as possible! We promise you massive results in just 60 days. Don’t wait another minute to experience Total Physique Transformation. If you’re in a hurry to increase lean muscle mass, then order Monster Mix today!
